

Custom Engraving Guidelines

We can engrave only black and white images as well as most vector files. Please have a look at the visual guide below to see if the image you have in mind is suitable. We can also engrave any text, and for that you will need to send us the font file you wish to use, or a link to any font on www.dafont.com.

If you would like to check that your image is suitable, or simply have a question, please email us at info@frontierwargaming.com
