

DISPLAY CASE MEASUREMENT GUIDE

ALL DISPLAY DIMENSIONS LISTED ON OUR WEBSITE (**HEIGHT × WIDTH × DEPTH**) REFER TO THE **USABLE INTERNAL SPACE** INSIDE THE DISPLAY.

INTERNAL DIMENSIONS

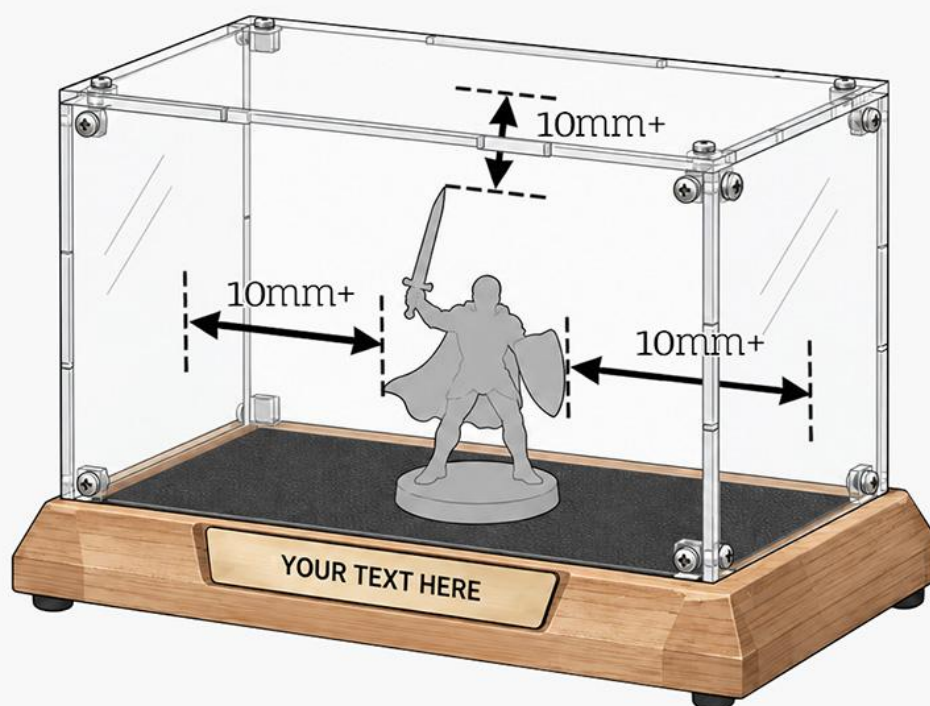

WIDTH ALWAYS REFERS TO THE SIDE WHERE AN ENGRAVED
NAMEPLATE CAN BE INSTALLED.

WHEN CHOOSING A DISPLAY, MEASURE THE **MAXIMUM** HEIGHT, WIDTH, AND DEPTH OF THE MINIATURE OR MODEL YOU WANT TO PLACE INSIDE. MAKE SURE TO INCLUDE ANY PARTS THAT **EXTEND BEYOND** THE MAIN BODY, SUCH AS WEAPONS, WINGS, RAISED ARMS, OR THE BASE.

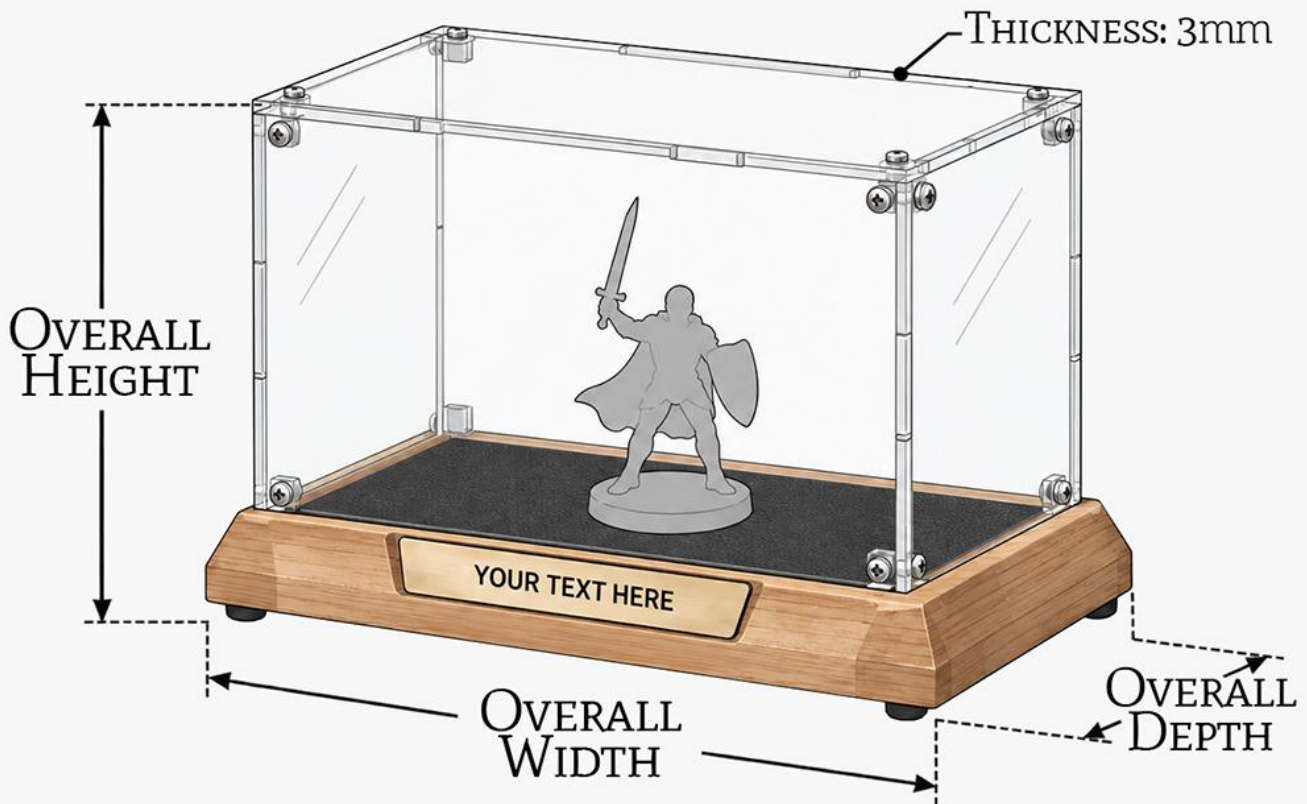

IF YOUR MINIATURE FITS WITHIN THE LISTED DIMENSIONS, IT **WILL FIT** INSIDE THE DISPLAY.

RECOMMENDED CLEARANCE

HOWEVER, WE RECOMMEND CHOOSING A DISPLAY WITH AT LEAST **10 MM OF EXTRA SPACE** , OR MORE IF POSSIBLE, AROUND THE MINIATURE. THIS GIVES THE MODEL SOME VISUAL **BREATHING ROOM** AND PREVENTS IT FROM LOOKING CRAMPED OR SITTING TOO CLOSE TO THE ACRYLIC PANELS.

OVERALL DIMENSIONS

THE DIMENSIONS LISTED FOR EACH DISPLAY DO NOT REPRESENT ITS TOTAL EXTERNAL SIZE.

THE ACRYLIC PANELS ARE **3 MM THICK**, AND THE WOODEN BASE EXTENDS BEYOND THE ACRYLIC COVER. THE BASE AND FEET ALSO ADD TO THE OVERALL HEIGHT OF THE DISPLAY.

TO CALCULATE THE APPROXIMATE EXTERNAL DIMENSIONS:

- **OVERALL HEIGHT:** INTERNAL HEIGHT + **18 MM**
- **OVERALL WIDTH:** INTERNAL WIDTH + **20 MM**
- **OVERALL DEPTH:** INTERNAL DEPTH + **20 MM**

USE THESE OVERALL DIMENSIONS IF YOU NEED TO CHECK WHETHER THE COMPLETE DISPLAY WILL FIT ON A SHELF, DESK, CABINET, OR OTHER CHOSEN LOCATION.
