

FRONTIER WARGAMING

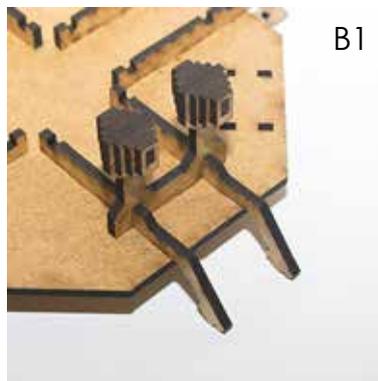

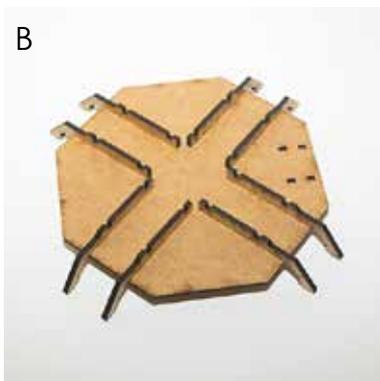

SCI-FI LANDING PAD

Tools you might need during the assembly: hobby knife, file, PVA (white glue) or super glue or epoxy glue.

1. Assemble all 8 pillars, as shown in pictures "A", "A1" and "A2".
Glue the parts together for better durability.

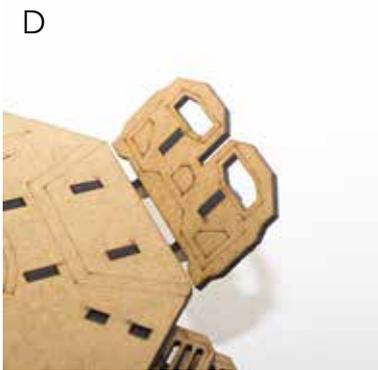

2. Attach the railings and the pillars, as shown in "B" and "B1".
Glue the parts together, for better durability.

3. Assemble the stairs and attach it to the pad , as shown in pictures "C" and "C1".
Glue the parts together, for better durability.

4. Attach the walls, as shown in picture "D".
